Equitas Small Finance Bank successfully facilitates over one million vaccinations in collaboration with the state governments of India

India, September 20, 2021: Equitas Small Finance Bank, one of India's largest small finance banks is proud to announce that it has successfully facilitated and administered over one million vaccinations in collaboration with the state governments of India. The milestone is a testament to Equitas' belief of 'Emerging Stronger and Together' firmly embedded in the value system and anchored on the principle of going 'Beyond Banking'.

Equitas Small Finance Bank staff assisted the officials in implementing a successful vaccination drive and taking on the challenging role of spreading awareness, persuading, assembling, and channelizing the community mainly focusing in the rural and underserved areas. Capitalizing on its previous expertise in arranging numerous health camps, the Equitas team was able to inform and create relevant awareness while providing basic amenities for doctors, officials and all those who administers the vaccine.

Equitas focussed on mobilizing the core of all families - women - to lead their immunization campaigns. The first step was tailored around women in slums and underprivileged communities who were informed on the significance and importance of the vaccines. Since women are pivotal in disseminating essential information and convincing family members on various healthcare matters, the team provided them with the necessary understanding to be shared within their households and the surrounding community. The teams were consistently contacting families and confirming if they had taken their vaccine doses. This data along with areas that had a lower frequency of vaccinated individuals helped to identify locations for the vaccination drives and successfully carry them out in partnership with the medical authorities.

Mr. John Alex, Executive Director and CEO, Equitas Holdings Limited, said *"We at Equitas, strongly believe that the community is a key constituent of the nation's growth. We have always actively been involved in the well-being of the less fortunate in our society. The vaccination drive is a life-saving mission, considering any person who is vaccinated is 80% protected. We are happy to have collaborated with the state governments of India in the battle against the pandemic. The administration of over one million vaccinations across India, is a step in the direction towards making India a safer place and fastrack the return to normalcy. I urge each and every citizen who has not been vaccinated to register for the same at the earliest to protect yourself and the lives of the people around you."*

About Equitas Small Finance Bank Limited [ESFB]

Equitas Small Finance Bank is one of the largest small finance banks in India. As a new-age bank, we offer a bouquet of products and services tailored to meet the needs of our customers – individuals with limited access to formal financing channels, as well as affluent and mass affluent, Small & Medium Enterprises (SMEs) and corporates. Our firmly entrenched strategy focuses on providing credit to the unbanked and underbanked micro and small entrepreneurs, developing products to address the growing aspirations at the 'bottom of the pyramid', fueled by granular deposits and 'value for money' banking relationships.
