This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial results are free of material misstatement. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement prepared in accordance with the recognition and measurement principles laid down in AS 25, prescribed under section 133 of the Companies Act 2013, the RBI Guidelines and other accounting principles generally accepted in India, has not disclosed the information required to

The full extent of impact of the COVID-19 pandemic, including the ongoing second wave of increasing infections, on the Bank's operations, and financial metrics (including impact on provisioning on advances) is uncertain as on date and will depend on future developments, including new information on severity of the new and evolving virus variants, government and regulatory guidelines, which are uncertain and incapable of estimation at this time.

Commenting on the quarterly performance, **Mr. P N Vasudevan, Managing Director and CEO of Equitas Small Finance Bank** said:

The Bank primarily caters to small retailers and transporters engaged in daily use products. During the quarter due to lockdowns and other covid related restrictions, cash flows of these small retailers had been significantly impacted. The impact was felt across geographies and in rural locations too. With the absence of a moratorium during the second wave of covid, the bank offered to restructure loans of impacted customers in order to help them manage their cash flows better.

However, in July, we are seeing a strong uptick in collections and disbursements as the country gets back to near normalcy. We are confident that our customers would be able to regain their cash flows, remain resilient and continue to grow their small businesses as the pandemic wears off. However, we remain cautious of a plausible third wave.

Our liability franchise continues to deliver extremely well and investments in digital technologies, branches and people are yielding the desired results.

At Equitas, we continue to play a strong supportive role in conjunction with various State Governments by organizing a total of 3,799 vaccination camps for low-income communities, benefitting 4,45,566 people.
