AMC stocks rise on SIP gains, outlook

Listed asset managers may clock sustained aggregate revenue growth in Q1

NIKITA VASHISHT
New Delhi, 10 July

Investors lapped up shares of asset management companies (AMCs) on Thursday as analysts expect the sector's earnings to gain from steady mutual fund (MF) flows and a recovery in the secondary market.

UTI Asset Management Company (UTI AMC) hit a record high of ₹1,429.4 per share on the BSE, rising 6.3 per cent in intraday trade. Shares of HDFC AMC, Shriram AMC, Nippon Life India Asset Management, Escorp Asset Management, and Aditya Birla Sun Life AMC, gained 1 per cent to 4.3 per cent. By close, these shares ended up to 4 per cent higher compared to the BSE Sensex's 0.4-per cent decline.

Earnings outlook

Active equity net MF inflows in June surged 29.6 per cent to ₹31,410 crore from the previous month, helped by record systematic investment plan (SIP) inflows of ₹27,269 crore and lump sum inflows of ₹4,140 crore. SIP inflows were at ₹26,600 crore in April and ₹26,700 crore in May, significantly contributing to active equity net inflows of ₹26,920 crore and ₹24,230 crore.

"This, along with strong market momentum in the April-June quarter of financial year 2025-26 (Q1 FY26), will lead to a surge in active equity asset under management (AUM) for asset managers during the quarter. Listed asset managers are likely to clock sustained aggregate revenue growth of 17 per cent year-on-year (Y-o-Y) and 3.9 per cent Q-o-Q in Q1," said analysts at Nuvama Institutional Equities.

Operating leverage is likely to drive AMCs' aggregate core earnings before interest and tax (EBIT) growth to 21.3 per cent Y-o-Y and 4.1 per cent Q-o-Q in Q1 FY26. Adjusted net profit growth is seen at 9.8 per cent Y-o-Y in Q1 FY26 due to strong mark-to-market (MTM) equity performance. Over the longer term, analysts at Kotak Institutional Equities revised their earnings estimates upwards by 4.9 per cent for FY25-28 on higher MTM.

The brokerage estimates 15 per cent compounded annual growth rate (CAGR) in AUM over FY2027-28, baking in 10 per cent growth from MTM gains as against the previous assumption of 5 per cent growth.

Analysts support raising AMCs' valuations as well. Those at ICICI Securities believe there is a case for increasing AMCs' valuation multiples due to the increasing trend of commission rationalisation, likely benefits from higher consumer discretionary income after tax and repo rate cuts, possible higher growth from a new asset class of specialised investment funds,

On the rise

Company	CMP	FYTD (₹)	Chg (%)
Shriram Asset Management Co	589.5	41.0	
Nippon Life India AMC	814.7	40.9	
Aditya Birla Sun Life AMC	850.2	33.4	
UTI Asset Management Co	1,394.4	32.4	
HDFC AMC	5,207.0	29.7	
Sensex	83,190.3	7.5	

CMP: Current market price Source: Bloomberg

and lower regulatory risk.

"HDFC AMC, Nippon Life India Asset Management (NAM), Aditya Birla Sun Life, and UTI, have given average returns of 34 per cent since the start of FY26. Valuations remain relatively well placed and we believe AMC players are better placed on both structure and valuations," they said.

While analysts find current valuation multiples stiffer than in February — with one-year forward price-to-earnings (PE) around 10-25 per cent above mean — stable net MF flows give AMCs clear growth visibility in AUM.

Long-term play

Analysts at Antique Broking support rerating AMC stocks as they see the Indian MF industry growing at 15 per cent CAGR in total AUM and 20 per cent CAGR in active equities AUM. Their forecast is based on low double-digit nominal GDP/corporate earnings growth, SIP flows, rapid acceleration by digital-first/fintech distributors, and sustained momentum in passive AUM. The brokerage has initiated coverage on HDFC AMC, Nippon Life India AMC, Aditya Birla Sun Life AMC, and UTI AMC, with 'buy' ratings. Analysts at Nuvama prefer HDFC AMC (target: ₹5,840) and NAM (target: ₹960), while KIE bet on UTI AMC (Buy), NAM, HDFC AMC, and Aditya Birla Sun (Add for all).

MNC FUNDS

High-quality theme: Invest for minimum 5 yrs to offset valuation risk

SARBAJEET K SENG

MNC funds have struggled over the past year. The category declined by 5.7 per cent, compared with a 2.3 per cent gain in flexicap funds, over the past year. Despite this, Nippon India Mutual Fund has launched a new fund offer (NFO) for its MNC (multinational corporation) Fund, aiming to tap the long-term growth potential of the category.

"Thematic funds can display some divergence vis-à-vis the broader market in certain market phases. In the past one year, banking and financial services significantly outperformed the broader markets while themes like industrials, FMCG and consumer discretionary, which form a high percentage of MNC funds' portfolios, lagged," says Sailesh Raj Bhan, chief investment officer — equity investments, Nippon India Mutual Fund.

MNC funds invest a mini-

mum of 80 per cent in companies with cross-border business interests, assets or operations. The Nifty MNC Index tracks 30 firms that have at least 50 per cent foreign promoter holding. Currently, eight MNC funds manage ₹17,563 crore in assets.

High quality, diversified exposure

MNC funds hold stocks with strong fundamentals. "MNCs tend to have strong cash flows and efficient capital structures. They focus on profitability, resulting in reasonably high margins and return on invested capital (RoIC). The parent companies often have a wide product portfolio or technology solutions," says Karthikraj Lakshmanan, fund manager, UTI Asset Management Company.

These funds span a range of sectors: FMCG, capital goods, auto, metals and mining, healthcare, information technology, and chemicals. "MNC funds,

though in the thematic category, are diversified across most sectors barring financials, and are market-cap agnostic with good representation of large, mid and smallcap companies, thus providing good overall exposure," says Lakshmanan.

Long-term compounders

Despite recent underperformance, MNC funds have delivered over longer time frames. Over three and five years, the category returned 13 per cent and 15.8 per cent category average returns, respectively.

"MNCs have been consistent compounders over a long period. This theme needs to be looked at with a long-term wealth creation perspective," says Bhan.

"When markets perform extremely well, the MNC category tends to relatively underperform, though absolute performance is still healthy, as has been the case in the past five years since the pandemic," says Lakshmanan.

Government push

Government initiatives could boost the prospects of MNCs. "India's current growth trajectory

could be a strong driver for MNC companies' growth potential," says Ravi Kumar TV, founder, Gaining Ground Investment.

MNCs could benefit from India's growing focus on manufacturing. "Initiatives like Make in India and PLI schemes can aid in making India a factory to the world. The MNC space can be an important contributor as well as a beneficiary of India's growth possibilities across manufacturing, consumption and innovation," says Bhan.

Valuation premium

MNC stocks often trade at higher valuations. "With strong balance sheets and high cash flows, they are bound to be expensive when measured on parameters such as price-to-earnings (P/E) and enterprise value to earnings before interest, taxes, depreciation and amortisation (EV/EBitDA). However, there are good investment opportunities in the space, as cash flows, growth and volatility need to be measured for the current price," says Lakshmanan.

Investors should be prepared for periods of underperformance. "These funds come with global risks and may experience slower performance during strong bull markets in India," says Kumar.

Allocation strategy

MNC funds work best as satellite holdings. "Conservative investors can have 5 per cent exposure to these funds, while experienced investors can consider 10 per cent. Ideally, one should invest for a five-year holding period," says Kumar.

Passwords to vigilance: NPCI shares tips for safe digital transactions

Digital payments are quick, convenient and safe when users follow secure practices. National Payments Corporation of India (NPCI), the organisation that oversees India's retail payment systems, including UPI, has suggested five tips for secure digital trans-

actions in a statement.

Verify before you pay

Always check the recipient's name on your screen before transferring money. Confirm if it is the person or merchant you intend to pay to avoid accidental or fraudulent transfers.

Use trusted apps and websites only

Use official and reputed payment apps or websites. Avoid clicking on suspicious links or downloading unknown apps, as scammers often use fake platforms to steal personal information.

Never share passwords

Your UPI PIN, OTPs, and bank details are confidential. No bank, government agency, or police official will ever ask for these details.

Do not rush payments

Fraudsters often pressure

users to act quickly. If you receive an urgent payment request, take a moment to verify it.

Turn on alerts and stay vigilant

Enable SMS and app notifications for all transactions.

NOTICE TO SHAREHOLDERS

(Transfer of Equity Shares of the Company to Investor Education and Protection Fund (IEPF) Authority)

This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 notified by the Ministry of Corporate Affairs effective September 7, 2016 and amendments made thereto (referred to as "the Rules").

The Rules, amongst other matters, contain provisions for transfer of all shares in respect of which dividend has remained unpaid or unclaimed by the shareholders for seven consecutive years or more in the name of Investor Education and Protection Fund (IEPF) Authority.

The Company has sent individual communication to the concerned shareholders whose shares are liable to be transferred during the financial year 2025-2026 to IEPF Authority under the said Rules.

The Company has uploaded details of such shareholders whose shares are due for transfer to IEPF Authority on its website at www.periatea.com.

Shareholders are requested to verify.

Shareholders may note that both the unclaimed dividend and the shares transferred to IEPF Authority including all benefits accruing on such shares, if any, can be claimed back from IEPF Authority after following the procedure prescribed under the Rules.

The concerned shareholders, holding shares in physical form and whose shares are liable to be transferred to IEPF Authority, may note that upon such transfer, the original share certificate(s) which stand registered in their name will stand automatically cancelled and be deemed non-negotiable.

The shareholders may further note that the details uploaded by the Company on its website should be regarded and shall be deemed adequate notice by the Company for the purpose of transfer of shares to IEPF Authority pursuant to the Rules.

In case the Company does not receive any communication from the concerned shareholders on or before 5th October, 2025, the Company shall transfer the shares to IEPF Authority as per procedure stipulated in the Rules.

In case the shareholders have any queries on the subject matter, they may contact the Company's Registrar and Transfer Agents at MUFG Intima India Private Limited (formerly Link Intima India Private Limited), Surya 35, Mayflower Avenue, Behind Senthil Nagar, Sovipalayam Road, Coimbatore - 641028, Phone: +91 422 4958995 / 2539835-836, e-mail: coimbatore@mpms.mufg.com
